Plain & Fancy Custom Cabinetry Puts Made-To-Order Well Within Reach

Why settle for close, when you can have exactly what you want?

Discerning homeowners who crave the best are discovering they don't have to compromise thanks to the luxury of Plain & Fancy Custom Cabinetry. Many are turning to the company's experts to help them achieve their unique contemporary interior visions. Known for its unsurpassed quality and innovative designs, Plain & Fancy has been crafting made-to-order cabinetry for each customer – one by one – for nearly 40 years.

To demonstrate the luxury of custom cabinetry, *Metropolitan Home* and Plain & Fancy have created the **Contemporary Kitchen Showcase** to spotlight how modern homeowners are integrating custom cabinets into their kitchens. In addition to the spaces shown here, see more gorgeous examples online when you visit the ETC page on the Modern Mix at [MetHome.com](http://MetHome.com).

#### THE ADVANTAGES OF PLAIN & FANCY'S AUTHENTICALLY HANDCRAFTED AND COMPLETELY CUSTOM CABINETRY

- ✦ Made-to-order cabinets are measured precisely to fit a specific space and are designed to meet the homeowner's individual taste.
- ✦ Mortise and tenon construction produces unparalleled strength and durability.
- ✦ Instead of using fillers to address gaps or 'dead space,' custom cabinetry can utilize that space for unique storage solutions or display areas.
- ✦ Plain & Fancy's peerless custom craftsmanship delivers highly specialized detail work and painstaking multiple finishing steps, as well as custom features and appointments.

Normandy Builders designed and installed this Chicago kitchen (shown here) using Plain & Fancy's Madison-style doors featuring the distinctive vertical grain of rift-cut oak.

(Above) Demonstrating Plain & Fancy's versatility, Pittam Associates, Inc. of Atlanta create a kitchen that mixes Contemporary doors in natural and cranberry with Shaker doors in a buttercream enamel.
